- **Comdt / Vice Principal QIMS**

Malik Abdul Wali Khan Kakar Governor Balochistan

The need of quality medical education has never been so promising than it is today. Understanding this need of the time, Quetta Institute of Medical Sciences (QIMS) has gone a long way in promoting quality medical education with state of art faculty and infrastructure and a path to support continuous knowledge, research and development in the field of Medical Education.

Quetta Institute of Medical Sciences is striving to impart quality education that not only sharpens the intellectual ability of the student but also inculcates ethical and aesthetic values, thus molding a multifaceted personality that is ready to shoulder responsibilities towards family, society and the nation.

Faculty members at the Quetta Institute of Medical Sciences headed by the Principal and Commandant leave no stone unturned to assist the student in discovering their potentials and to build up confidence that will enable them to face the world after leaving the portals of the college. At Quetta Institute of Medical Sciences you will get the best of the infrastructural facilities, caring attention, and the right academic ambience, which you have dreamt as a parent and student.

Quetta Institute of Medical Sciences believes that true medical education is one that develops the overall personality of individuals. Therefore, Quetta Institute of Medical Sciences takes care that academics is complemented by co-curricular, extracurricular and sports activities. It has been its endeavor to offer best of such facilities to students.

I assure you that a right blend of Intellectual, physical and ethical avenues will be made available to students in order to develop themselves into good responsible doctor as well as citizens, which the society will be proud of.

I sincerely hope and pray that the new comers have a rewarding stay at QIMS, leading a successful professional life.

Mir Ali Mardan Khan Domki **Caretaker Chief Minister Of Balochistan**

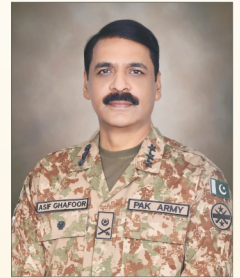

Quetta Institute of Medical Sciences, the flagship institute of Pakistan Army was instituted in 2011, with the aim to provide premium education to the residents of Baluchistan. This institution was established to address the rising demand for medical education in Balochistan province. This year QIMS completed twelve years of living the vision and mission of the college. The college has always aimed to equip the students to push the boundaries of knowledge while sensitizing them to the need for compassion and integrity as trained doctor, individuals, and global citizens. Quetta Institute of Medical Sciences is faced with a new call at a time when the world is faced with an explosion of knowledge and technological innovations in the field of medicine.

I am pleased to know that QIMS have set high academic standards from the very beginning and provide a well-coordinated and closely monitored Medical Education to medical students by experienced professionals to grow academically, morally and professionally.

I am sure that students joining QIMS are ready to accept the challenges of 21st century and ever-evolving field of medicine. It is an exciting time for undergraduate medical students.

I would like to congratulate the Faculty, Students, and Administration of Quetta Institute of Medical Sciences for the wonderful college and conduct of academic curriculum that has resulted in achieving the desired target and to embark on a satisfying and challenging career. It is the passion, belief, and enthusiasm of these students to positively influence and advances in the undergraduate learning environment of the respective institution. I pray for bright future of the fresh and graduated students and would like to advise them to continue their educational pursuits with zeal and zest to promote professional skills not only within the province of Balochistan but also for whole of the country.

Lt General Asif Ghafoor, HI (M) Commander 12 Corps

Quetta Institute of Medical Sciences is a premier medical college in Balochistan that remains committed to provide state-of-the-art education to its students. Since its establishment in 2011, QIMS has gradually developed as one of the leading medical institutes to offer quality education, teaching facilities and modern research opportunities. It has become a distinguished center of excellence in healthcare and medical education that is contributing towards the well-being of society. The institution has achieved many commendable milestones like enhancement of seats from 100 to 150, 100% result in the Final Professional Annual Examination of 2021, and improved ranking amongst other medical colleges of Pakistan. Strictly adhering to the norms of transparent merit, regulated by NUMS and PM&DC and good practices, the institution has earned international recognition through inclusion in WHO International Directory of Medical Colleges and accreditation with Foundation of Advancement in International Medical Education & Research (FAIMER).

QIMS continues to support intellectual and personal growth of students while preparing them to become enterprising doctors, leaders and citizens with strong sense of ethical values and sound character. It has, over the years, remained a radiant example of professionalism, dedication, hard work and commitment to the cause. Through this voyage, it will keep ensuring exemplary education programs of international stature while inspiring the students through academic pursuits and transforming them for success in competitive environment.

QIMS is committed to prepare health professionals by providing comprehensive as well as high quality medical education that fosters professional competence, logical thinking, ethical values and sense of social responsibility. It endeavors to transform the young students into promising professionals while enabling them to contribute towards providing medical and healthcare services.

Professor Dr. Zafar Hussain Tanveer Principal QIMS

Quetta Institute of Medical Sciences (QIMS) is a leading medical college and has committed itself to provide quality undergraduate medical education in Balochistan. With the support of the Pakistan Army and the visionary management of the Balochistan government, the college has been able to scale new heights in academic excellence consistently.

Quetta institute of Medical Sciences (QIMS) has an elegant infrastructure with well-equipped Classrooms, Auditorium, Laboratories, Library, Hospital Out-patient Department, In-patient Department, and Sports Complex. We are proud of strong team of meticulously trained, dedicated, committed faculty, staff and advanced teaching aids. In the past 12 years, QIMS has grown not only in strength and size but also in levels of Excellence. QIMS has been a hub of multiple activities of excellence and achievements both by staff and students.

Our well experienced and professionally established faculty members are dedicated to their students to provide quality education through class room teaching and clinical training during the period of their study. Extensive clinical training is also provided in attached CMH Quetta hospital. QIMS nurtures the doctors of tomorrow through a unique, well-defined curriculum with dedicated focus on "learning beyond the classrooms." We create a positive and conducive environment for high quality learning and teaching where everyone is valued and respected.

I hope the aspiring students will make the best choice of selecting this institution for the undergraduate (MBBS) Medical Programme. I extend a very warm invitation to join our most distinguished Medical Fraternity here.

Brig Zain Niaz Naqvi, SI(M) Commandant / VP QIMS

QIMS has become one of the leading medical institutions of Pakistan and has achieved significant academic excellence in a short period since its inception. Over the years, we have evolved into a national level institution dedicated to producing exceptional medical professionals who make a positive impact on healthcare specially in Balochistan and other provinces of country. Our faculty consists of esteemed experts in various medical specialties, and our state-of-the-art facilities ensure that students receive the best possible education and practical training.

QIMS is affiliated with Combined Military Hospital Quetta, a tertiary care teaching hospital providing students with hands-on clinical experience. We believe in learning by doing, and our clinical training programs ensure that our graduates are well-prepared to provide high-quality patient care.

As we look ahead, we remain dedicated to pushing the boundaries of medical education and research. We envision QIMS as a hub for collaboration among medical professionals from around the world. We are committed to adapting to the ever-changing landscape of healthcare and preparing our students to excel in their careers.

I am confident that the college, with its rich legacy, will continue to shape the future of the young minds of our country and transform their potential into successful careers resulting in national development.

My best wishes to you all.

INTRODUCTION

QUETTA INSTITUTE OF MEDICAL SCIENCES is located in the cantonment area of Quetta within the premises of Combined Military Hospital. Institution's building and atmosphere are hallmark of sound academic environment in the serene valley. Quetta is the capital of Balochistan, the largest province of Pakistan. Balochistan has a rich cultural heritage and is blessed with immense natural resources. In the pre-partition era, Quetta was known as Little London, because of its beauty, cleanliness and orchards. The city in the present day has been changed into a centre of education, trade, commerce and business, as well as political hub of the province.

The valley of Quetta is situated at an altitude of 5,500 feet above sea level. Visitor's attractions like Hanna Lake, Urak Valley, Spin Tangi, Shahban and Ziarat are located close to Quetta.

Establishment of QIMS has marked the beginning of a new era of advanced medical education in the province. The institute was envisaged as a project to enhance medical training facilities in the region, both at undergraduate and post graduate levels. QIMS is committed to address pivotal issues of health care and to impart quality education to students, reflecting principles of humanity, dedication, compassion and selfless service. The college draws upon the strength of CMH Quetta which is one of the largest Tertiary Care Center in the region. College of Nursing is added to QIMS complex which is imparting BSc Nursing Degree. At present 6 batches of MBBS & 4 batches of nursing students have graduated from QIMS / Nursing college respectively.

QIMS has been recognized by PM&DC/ PMC in year 2012. Acknowledgment of the commitment and efforts of the staff and faculty has been demonstrated by the fact that the institution achieved international accreditation by FAIMER (Foundation for Advancement of International Medical Education and Research) and has been listed in the WHO Directory of the Medical Colleges within one year of its establishment. Its affiliated teaching hospital CMH Quetta is recognized by CPSP for postgraduate training in multiple specialties.

VISION

An efficient center of excellence for medical education, research and healthcare, educating/ qualifying healthcare professionals to serve communities thus contributing to the overall well-being of the society.

MISSION

To prepare health professionals by providing comprehensive, high quality medical education that fosters professional competence, logical thinking, ethical values and sense of social responsibility.

GOALS

QIMS aims to produce world-class doctors, who are motivated to serve the humanity selflessly, to stay abreast with scientific development and compete nationally and internationally in community of doctors, specialists, researchers and medical scientists. For this purpose, rich and supportive environment enables the students to actively pursue their educational goals.

STRATEGY

The strategy for fulfilling the mission is based on:

- Student-teacher interaction
- Modular system of instruction
- Problem-based education
- Community-based learning
- Incorporation of elements of research at undergraduate level
- Support in the form of:
 - Excellent library
 - Audio-visual aids
 - Clinical skills laboratory
 - Computer- assisted learning
 - Organizing student centered workshops & seminars

The Institute has evolved a system of instruction in which emphasis is placed upon:

- Interactive, small group tutorials
- Research orientation

Students are encouraged to develop knowledge, values and skills which illuminate their lives and prepare them for successful careers in national and international services.

CURRICULAR OUTCOMES

At the end of five years MBBS program, student will be able to:-

- a. Diagnose common medical problems, suggest and interpret appropriate investigations, rationalize treatment plan and if appropriate, refer patient for specialist opinion / management.
- b. Suggest preventive measures for the common Public Health Problems in the community.
- c. Perform relevant clinical procedures.
- d. Convey relevant information and explanations accurately to patients, families, colleagues and other professionals.
- e. Comprehend medical ethics and its application pertaining to medicine and maintain the confidentiality of the patient.
- f. Adopt research findings appropriately to the individual patient situation or relevant patient population.

COMPETENCIES

- a. Communication skills
- b. Critical thinking
- c. Problem solving
- d. Clinical skills
- e. Examination skills
- f. Procedural skills

Basic Medical Sciences

The Basic Medical Sciences wing of QIMS comprises of following departments:

- ➔ Department of Anatomy
- ➔ Department of Physiology
- ➔ Department of Biochemistry
- ➔ Department of Pak/Islamic Edu
- ➔ Department of English Language
- ➔ Department of Research,
Development & Biostatistics

All these departments have highly experienced, dedicated and professional faculty members. The departments are fully equipped with state of the art laboratories, museums, digital support & departmental libraries.

Department of Anatomy

Anatomy course consists of Microscopic Anatomy, Developmental Anatomy, Radiological Anatomy, Cross-sectional Anatomy, Surface Anatomy, Gross Anatomy and Neuro Anatomy. Practical experience is gained by going over dissected parts and systems of the human body with the help of models, specimens, dissection, 3D computer simulations and histological slides. Course is completed by conducting lectures, PBL sessions, tutorials, clinically oriented lectures, demonstrations, workshops & practicals.

Head of Department
Professor Dr. Ahmed Tariq Chishti
MBBS, MPhil (Anatomy)

Professor

Prof Dr. Arbab Abdul Wadood
MBBS, MPhil, FCPS

Associate Professor

Dr. Khalida Moeed
MBBS, MPhil

Senior Demonstrators

Dr. Jafar Khan Kasi
MBBS
Dr. Pakeeza Khurram
MBBS, MCPS

Demonstrators

Dr. Muntaha Hanif, MBBS
Dr. Hamza Khalid, MBBS
Dr. Arova Sarosh, MBBS
Dr. Sadia Saleem, MBBS
Dr. Saba Sikandar, MBBS

Department of Physiology

The interaction of human body with the environment, concepts of biological control of systems and biophysics of cell membranes is given special emphasis in the syllabus of Physiology. The subject includes study of functions of major organs and systems of the body with special emphasis on the functions of behavior, internal homeostasis, voluntary and involuntary motor control. Laboratory work makes an important and integral part of the subject during which demonstrations are given on electronic machines for analyzing blood, measuring pulmonary, muscular and nerve functions etc. Course is completed by conducting lectures, PBL Sessions, tutorials, clinically oriented classes, workshops & practicals.

Head of Department
Professor Dr. Zafar Hussain Tanveer
MBBS, MPhil, PhD (Physiology)

Professors

Prof Dr. Asghar Hussain
MBBS, MPhil

Associate Professor

Dr. Summayia Niazi
MBBS, MPhil

Senior Demonstrator

Dr. Zia Ud Din, MBBS, MPH

Demonstrators

Dr. Faiqa Butt, MBBS
Dr. Iraj Saeed, MBBS
Dr. Muhammad Naseer, MBBS
Dr. Samreen Haider, MBBS
Dr. Maria Farooq, MBBS
Dr. Nabila Essa, MBBS

Department of Biochemistry

Biochemistry course is structured into following three distinct portions in order to provide a logical approach to the subject:

- Nature of bio-molecules
- Study of synthesis, breakdown and biological functions of essential bio-molecules.
- Understanding of chemical and molecular processes which form the basis of health and disease.

Laboratory practicals are held to assist in elucidating the concepts discussed in lectures and seminars. Students are introduced to the concepts of clinical biochemistry and modern techniques used in the clinical service and basic research laboratories. Hands-on training is provided in various procedures to familiarize the students with scientific basis of modern methods.

Head of Department

Professor Dr. Muhammad Masoom Kasi
MBBS, MPhil (Biochemistry),
MPhil (Morbid Anatomy & Histo Pathology),
Diploma in Clinical Pathology

Professor

Prof Dr. Abdul Samad
MBBS, MPhil

Dr. Aroosa Akram, MBBS
Dr. Neelam Naz, MBBS

Department of Islamic & Pakistan Studies

These inter and multidisciplinary subjects have been included as mandatory part of the course for all professional degrees. The objective of inclusion is primarily the enhancement of religious, moral and political values of professionals across the nation. This has proven to be a source of positive social advancement in student's individual and collective spheres of influence.

The curriculum of Islamic Studies has been designed to reinforce the primary concept of faith and values, the knowledge of 'Seerah' and introduction of a selection of Quranic verses and Ahadith for enlightenment and personal growth.

The Pakistan Studies course has the prime objective of inculcating the spirit of patriotism along with up to date knowledge of various areas of related studies.

Lecturer
Mr. Muhammad Jamshad
MA (Islamiat)

Department of English Language

The Department of English Language and communication skills is one of the leading department of the institute with a richness of excellence and quality teaching. The department has always been committed to the symbiotic relationship of teaching and the larger concerns of society. The English language department maintains its strong commitment to traditional areas of study while supporting groundbreaking research and teaching in new and interdisciplinary approaches of Medical Studies. Courses are designed to be challenging, interesting and intellectually stimulating to cater for the needs of national and international students from diverse backgrounds. The state of the art courses related to four basic communication skills: Speaking, Listening, Writing and Reading have been added in the curriculum to give a diverse perspective to the students and to convey knowledge of linguistic competence as well as verbal performance.

The Department of English aims to provide students with a stimulating environment to develop skills in all areas of English.

Lecturer
Ms. Gulali Khan
MPhil (American Literature)

Department of Research Development & Biostatistics

The broad aim of the Research & Development department is to assist researchers around how to start a high quality project, protocol writing & ethical work.

This department also caters to the course of Bio-Statistics which provides skills to students for acquiring knowledge about research methodology.

Statistician
Ms. Mariam Hameed
MPhil

The Pre Clinical Sciences Wing

The Pre Clinical Sciences wing of QIMS comprises of following departments:

- ➔ Department of Pharmacology
- ➔ Department of Forensic Medicine
- ➔ Department of Community Medicine
- ➔ Department of Pathology

Department of Pharmacology

The course of Pharmacology covers chemical structure of different drugs, their pharmacological effects on the cell and organs of the human body. The mechanism of action and metabolism of drugs in the body with emphasis on their therapeutic use is also taught. Problem based learning (PBL), Case-based learning and interactive sessions are an integral part of the teaching methodology to encourage participation of students in the learning process. Prescription writing and elementary biostatistics also form an essential component of practical training.

Head of Department
Professor Dr. Abdul Salam
MBBS, MPhil (Pharmacology)

Miss Jasia Durrani, Pharm-D

Department of Forensic Medicine & Toxicology

Forensic Medicine is a fascinating field of endeavor, arguably, the most exciting, dynamic & constantly changing area of medical specialization. It combines two of the world's oldest and noblest professions, law and medicine. Forensic Medicine covers the medico-legal aspects of health, crimes of violence such as homicide and suicide, accidents, firearm injuries, explosions, vehicular injuries and infanticides. The course also includes problems of sexual assaults, medico-legal aspects of pregnancy, abortion, impotency etc. Students study the medico-legal system of the country, duties and responsibilities of doctors. Medical aspects of law in relation to poisons, their recognition, treatment and collection of visceral specimens and their analytic methods are also taught.

Head of Department
Professor Dr. Muhammad Younas
MBBS, DMJ

Senior Demonstrator
Dr. Arbab Abdul Wahid, MBBS

Demonstrators
Dr. Maryam Sadiqa Alvi, MBBS
Dr. Ayesha Gul, MBBS
Dr. Sana Wakeel, MBBS

Department of Community Medicine

Curriculum of Community Medicine is planned to prepare the students to become community-oriented physicians and thereby contribute effectively to the healthcare system of the country. It includes the study and application of wide range of social sciences, concepts of health economics, human behavior, socio-anthropology and social determinants of health and disease.

The study of epidemiology, demography and bio-statistics is introduced at appropriate stages. Special emphasis is given to the planning and management of primary healthcare system and students are involved in field work under the guidance and supervision of experienced staff.

Head of Department

Department of Pathology

Pathology integrates basic and clinical sciences and thus forms the basis of medical teaching. Rapid technological progression has increased the scope of this subject with remarkable clarity for structural and functional changes at cellular level.

Pathology course includes General and Special Pathology, Histopathology, Hematology, including blood bank with component facility, Clinical and Chemical Pathology, Immunology, Microbiology, Virology, Molecular Pathology and Parasitology.

The Department of Diagnostic Pathology is equipped with latest technologies for dealing with all types of samples and providing a wide array of tests round the clock. The latest additions are PCR and plasma facilities.

Clinical Sciences Wing

The Clinical Sciences wing of QIMS comprises of following departments:

- ➔ Medicine and Allied Sciences
- ➔ Surgery and Allied Sciences
- ➔ Anesthesiology
- ➔ Gynecology/Obstetrics
- ➔ Ophthalmology
- ➔ Otorhinolaryngology
- ➔ Dermatology
- ➔ Psychiatry
- ➔ Pediatrics
- ➔ Rehabilitation Medicine
- ➔ Radiology

All departments have highly experienced, dedicated and professional faculty members. The departments are fully equipped with state of the art laboratories, museums and digital support. Clinical disciplines are recognized by CPSP for postgraduate training- MCPS/ FCPS in respective specialties.

Department of Medicine & Allied

The Department of Medicine at CMH Quetta has a long history of being managed by physicians of repute. It is a pivotal department which carries the load of large number of patients from Balochistan as well as neighbouring parts of Afghanistan.

It is the focal point for a wide range of clinical and academic services and is recognized for postgraduate, MCPS/FCPS training in medicine as well as house job training. The department manages a 10-bedded Intensive Care Unit/ Coronary Care Unit and a 30 bedded High Dependency Unit (HDU) in addition to 180 general medical beds in 6 medical wards for males and females. The department comprises Internal Medicine, Critical Care Medicine, Cardiology, Pulmonology, Gastroenterology, Neurology and Nephrology.

Internal Medicine

The section of Internal Medicine coordinates the inpatient activities as well as outpatient consultation services. It provides specialized treatment in cases of infectious diseases, nutrition, general internal medicine, endocrinology, rheumatology etc. In hospital consultation services are provided to allied departments like Surgical, Gynaecology & Obstetrics both in ambulatory and inpatient settings.

Critical Care Medicine

The Critical Care Medicine at CMH Quetta is well developed. Quetta because of its remote location necessitates a standalone facility, which this unit is quite capable of providing. The ICU is a very well equipped unit with facilities for management of all kinds of serious cases.

All beds have Cardiac, NIBP and Oxymetric Monitoring. Facility for invasive arterial capnography, CVP Monitoring, arterial gas measurement and emergency pacemaking are available. The department has the capability to provide lifesaving ventilation facility for 10 patients simultaneously. Options for both invasive as well as non invasive ventilation like NIV, CPAP, BiPaP are also available. Bedside radiologic, ultrasound and echocardiographic assessment are done routinely in ICU.

Cardiology

Cardiology section provides complete and comprehensive care to patients suffering from cardiovascular diseases. The section utilizes a well developed Coronary Care Unit (CCU) for patients requiring intensive care and a Step-Down Unit (HNC) designed for cardiac patients requiring an intermediate level of care. Diagnostic services like Trans-thoracic Echocardiography (2D Echo), transesophageal echocardiography (TOE), exercise tolerance testing (ETT), and 24-hour ambulatory blood pressure and ECG (Holter) monitoring are available. A 64 slice CT scanner is available for diagnostic CT Angiography. Implantation of temporary cardiac pacemaker in emergency is done in department.

Gastroenterology

Gastroenterology section caters to a large number of patients presenting to the outpatient clinics and emergency rooms. The section provides diagnostic and therapeutic procedures which include esophagogastroduodenoscopy, endoscopic variceal sclerotherapy, endoscopic band ligation, colonoscopy, polypectomies, electrocoagulation, endoscopic retrograde cholangiopancreatography (ERCP), common bile duct stone extraction etc.

Department of Medicine & Allied

Pulmonology

The pulmonology services manage patients with asthma, chronic obstructive pulmonary disease, restrictive lung disease, pulmonary embolism, pulmonary tuberculosis and variety of infections, pleural effusion and other diseases of the chest. Diagnostic services include pulmonary function test (PFT), fiberoptic bronchoscopy, and high resolution CT scanning of chest. Intensive care management of patients requiring ventilation is done by this service.

Neurology

The department of Neurology offers comprehensive specialty consultation in both outpatient and inpatient settings for management of congenital and acquired diseases of central and peripheral nervous system disorders. Hospital has facility of CT scan and MRI Scan as well as electromyography (EMG), nerve conduction studies (NCS), electroencephalography (EEG) and evoked potentials.

Nephrology

The Nephrology services cater to a large number of patients of acute and chronic kidney diseases and is responsible for care of all patients in both inpatient and outpatient settings. The hospital has facilities for diagnostic renal biopsy, peritoneal dialysis and haemodialysis. Haemodialysis is also available as an outdoor service at a well equipped haemodialysis centre.

Department of Surgery & Allied

The Department of Surgery is fully recognized by CPSP for postgraduate training.

A large range of sub-specialties form part of this department. These include Orthopedic Surgery, Thoracic Surgery, Paediatric Surgery, Neuro Surgery, Plastic Surgery, Urology and Vascular Surgery.

Students get clinical training in surgery in their 3rd, 4th and final year by experienced and skilled consultants and during this time they are also rotated in various sub-specialties.

It is one of the busiest department of CMH. It has well organized Accident and Trauma Services because of which it remains at the forefront of extending specialized care to the vast variety of injured cases received as victims of terrorist incidents, accidents and other disasters.

Urology

The department is fully equipped with the latest diagnostic and therapeutic modalities. All sorts of endourological, laparoscopic, reconstructive, paediatric and uro-oncological procedures are being carried out.

Plastic Surgery

Department of Plastic Surgery is a recent addition to the surgical department. All types of reconstructive procedures including free flaps are being done regularly. Cosmetic surgery including rhinoplasty, otoplasty, scar revisions etc. are also carried out.

Pediatric Surgery

Facilities are available to deal with all sorts of congenital abnormalities, paediatric trauma, and paediatric neoplasms. CMH has a newly constructed paediatric ICU equipped with the latest ventilators and monitoring devices for the seriously ill children.

Neurosurgery

Neurosurgical Department is a busy area that manages large number of cases related to road traffic accidents, bomb blast injuries and neurological / spinal diseases. All kinds of emergency and elective neurosurgical procedures are being done.

Vascular Surgery

Both elective and emergency vascular procedures are performed routinely such as peripheral vascular bypass, aneurysmorrhaphies, carotid surgery, portosystemic shunts, AV malformation surgery, AV access procedures and vascular trauma management.

Department of Anaesthesiology

Department manages six operation theaters round the clock for elective and emergency services providing anaesthesia for all types of surgeries including laparoscopic, vascular, thoracic, neuro surgery etc. Services offered includes general and regional anaesthesia, epidural analgesia with different nerve blocks/labels.

Operation theaters are well equipped with modern anaesthesia machines, multi-parameter monitors and other ancillary equipment.

Anaesthesiology department also manages state of the art surgical ICU where critically ill patients are managed with full enthusiasm and dedication. ICU is equipped with latest ventilators and monitoring equipments.

Pain clinic is being run on regular basis, where patients having acute or chronic pain are managed by competent doctors. Services for painless delivery are also offered here.

Department of Gynaecology & Obstetrics

CMH Quetta Obs & Gynae department enjoys state of the art equipment and expertise. It serves at both preventive and therapeutic levels. Full fledged maternity services are providing excellent care to mothers and newborns. Department caters 1200 deliveries per year.

Community health programme incorporate students from 4th year onwards in community based projects of preventing disease and improving women health. In addition to conventional surgical facilities for minimal access surgery also exist. The department is fully recognized for postgraduate training by CPSP and for midwifery training by University of Balochistan.

Department of Otorhinolaryngology

Otorhinolaryngology Department of CMH Quetta is one of the best equipped ENT Departments in the region. It is geared to cater for diagnosis and management of whole range of ENT disorders. Allied support of plastic and thoracic surgeons has enabled the department to undertake the most extensive oral, ear and nasal surgeries.

Audiological facilities range from latest audiogram, tympanogram and brainstem evoked response audiometer (BERA). Latest equipment includes Fibreoptic Video Nasaloryngoscope and Functional Endoscopic Sinus Surgery (FESS) equipment that has greatly enhanced the diagnostic and therapeutic potentials of the department. The department is fully recognized for FCPS Part II training.

Maj Dr. Waseem Shahid
MBBS

Registrar
Dr. Nosheen Abbas, MBBS

Department of Mental Health

Department of Mental Health caters for a wide variety of psychiatric and psychological trauma cases, including post traumatic stress and substance abuse disorders.

The department encompasses wide range of entities. Special attention is paid to the understanding of common psychological problems, as seen in clinical practice. Attention is also given to community psychiatry, where medical students will participate to gain clinical experience on psychiatric patients. They would learn to take case history and conduct mental status examination.

There is a psychosocial center which undertakes non-pharmacological interventions like psychotherapy, psychometry and runs workshops on common behavioral illness.

Head of Department
Maj Ihsan Ullah
MBBS, FCPS

Department of Paediatrics

Department of Paediatrics CMH Quetta is a tertiary care facility recognized for postgraduate training by CPSP. The Department has a state of the art Neonatal Intensive Care Unit (NICU), 50 bedded children ward which includes fully equipped Paediatric Intensive Care Unit (PICU) and a well organized out-patient department.

Department of Behavioral Sciences & Psychology

Department of Behavioral Sciences was raised upon the directive of NUMS. Initially Behavioral sciences was only taught to 1st & 2nd year MBBS students and to 2nd & 3rd Year Nursing College Students. Moreover, it was not an accredited subject for MBBS students. It was taught as a subject without exams.

In 2019, NUMS made changes which required medical students to take this subject. Degree shall not be awarded to any student until they clear Behavioral Sciences Subject in 3rd Professional Exam. In 4th & 5th Year, during clinical practice, they will be evaluated on the basis of their clinical conduct & how efficiently they implement their learning in the hospital setting.

Aim Of Behavioral Sciences

The aim of behavioral sciences subject is to train medical students in the area of anthropology, psychology and sociology. This inter disciplinary approach has important implications for students in all settings to treat & prevent behavioral, social & biological problems. During their clinical practice they are able to assess behavior and to implement behavioral interventions, to focus on diseases prevention and understand biopsychosocial issues, regardless of their area of training.

Head of Department
Mrs. Yasmeen Jomezai
MSc (Psychology)

Medical Education Department

The Goal of DME is to promote Excellence in Medical Education and professionalism through curriculum planning, innovative teaching, valid & reliable assessment and Educational Research

DME is working in the areas of

- ➔ Faculty Development
- ➔ Curriculum Development
- ➔ Teaching / Learning Methodologies
- ➔ Student Assessment
- ➔ Research in Medical Education
- ➔ Student Support Program

Department of Medical Education

Department of Medical Education is a recent emergence that has gained strength in last few years. Conceptually all disciplines in medical training work in collaboration with Department of Medical Education.

The mission of the department is to improve the quality of medical education being imparted to the future doctors and other health care providers in order to improve the health status of the people of the country. Besides, it plays an important role in faculty development and in the development of relevant and effective training programs. The department thus deals with curricular activities like syllabi, student's record and continuing medical and professional education.

Local Quality Enhancement Cell (L-QEC)

The Local Quality Enhancement Cell in each institution as envisaged by HEC, shall serve as an internal quality assurance mechanism of the institution, designed to build and ensure a quality culture at the institution and implementation of Minimal Quality Standards (MQS).

In QIMS, Local Quality Enhancement Cell (L-QEC) was established in 2019 as per derivatives by the National University of Medical Sciences (NUMS). The Cell has been working to further enhance quality standards of the institution.

Deputy Manager L-QEC
Mr. Abdullah Hanif

Department Of Clinical Simulation & Experiential Learning

Simulation based Medical Education is defined as educational strategy that utilizes simulation aides to replicate clinical scenarios. Through this technique, students experience a simulated hospital setting and practice clinical skills, thus significantly reducing the probability of errors / risk in future performance in the healthcare setting. The mission of department of Simulations & Experiential Learning (QIMS) is to deliver training that develops and enhances health care student's clinical expertise, competence, confidence & teamwork skills that facilitate high quality patient care and safety. QIMS Quetta has established a state of the art Clinical Simulation Laboratory equipped with high fidelity simulation tools that facilitate experiential learning.

Head Simulations & Experiential Learning
Dr. Tooba Masood
MBBS, CHPE

Department of Student Affairs

Department of Student Affairs has a key role in any institute and serves as a liaison between students, faculty and administration. The primary function of Student Affairs is to assist and help the students in all possible ways. It leads, directs and administers overall function of student counseling, discipline & uniform. This department is a central place for students where they can share their problems and grievances of any form and get help in this regard. This department facilitates students to participate in curricular and extra-curricular activities like sports, debates, picnics and other cultural activities. Headed by Director Student Affairs it has a full-time Deputy Manager Student Affairs who is available to students for sorting out their problems.

In fact, this department provides multiforms for cultivation of academic literary and artistic potentials which provide them a rich experience and multi-dimensional growth during their stay in campus.

Head of Department
Maj Dr. Asim Minallah
MBBS, FCPS

Deputy Manager Student Affairs
Ms. Zeenain Sarwar

ADMISSION

Students & parents are required to read the prospectus carefully before filling the admission processing forms.

For clarification of any query with regard to admission, PM&DC / NUMS Regulations 2023 can be consulted.

All the rules & regulations framed by PMC / PM&DC / HEC / NUMS / QIMS highlighted / not highlighted in the prospectus / QIMS website / seat allocation / merit formulation criteria etc, are applicable as amended from time to time pertaining to admission / academics / evaluation / discipline / migration / seat withdrawal / fee structure etc.

Ref: PM&DC Regulations: "Admission, Curriculum and Conduct - Policy & Regulations 2023 - dated 13th July 2023

Induction of new batch (all categories will commence in **Oct / Nov 2023** and the Academic session of new batch **(13th Batch)** at QIMS will commence as per NUMS instructions.

1. Entry Test (All categories):

- a. Entry test for each MBBS admission session shall be conducted as per PM&DC and NUMS Regulations announced for the particular session.
- b. **PM&DC Regulations Para 4 (2):** National University of Medical Sciences (NUMS) shall be **Admitting University** responsible for admissions in all Armed Forces-Administered medical / dental colleges. **NUMS admission test** shall be considered at par with National MDCAT to be applicable only for admission in all Armed Forces Administered medical / dental colleges.
- c. Candidates of all categories shall apply to NUMS for appearing in MDCAT (NUMS).

2. Admission Criteria:

PM&DC Regulations Para 3 (1): Any person seeking admission in any undergraduate medical or dental college in Pakistan shall be eligible having fulfilled the following mandatory criteria.

- a. Have passed MDCAT examination.
- b. Obtained a Higher Secondary School Certificate qualification (HSSC) or an equivalent 12th grade qualification recognized in Pakistan and having obtained a minimum of sixty percent (60%) marks therein, or a higher percentage as may be notified by the Pakistan Medical and Dental Council.
- c. Passed the subjects of biology, chemistry and either physics or mathematics in the examination of Higher Secondary School Certificate qualification (HSSC) 12th grade qualification recognized in Pakistan.

3. Merit List / Merit Formulation:

- a. **PM&DC Regulations Para (5):** (1) In addition to mandatory requirement of passing MDCAT, admissions to private colleges recognized by the Council shall be conducted and completed by each of private college from merit list displayed by the admitting university.

b. **PM&DC Regulations Para (5):** (2) Each of private college shall publically issue the criteria and merit formulation as prescribed in the regulations for admissions as under:

(1) **MDCAT – 50% weightage**

(2) **F.Sc (Pre Medical) / HSSC / Equivalent – 40 % Weightage**

(3) **SSC / Matriculation / Equivalent – 10% weightage**

4. **QIMS Admission Process & Regulations:**

a. **NUMS Online Registration:**

As per NUMS (admitting university) admission regulations, all the candidates desirous for admission in QIMS for MBBS course shall apply online for registration to NUMS along with all the required documents within the due date and time announced by NUMS.

b. **QIMS Online Registration:**

(1) It is mandatory for all applicants to register online to QIMS in order to mark their seat category. Link of online form will be available on QIMS official website (www.qims.edu.pk).

(2) Once an online form is submitted by applicant, it cannot be edited.

c. **QIMS Admission Processing Form:**

(1) After online submission of QIMS form, applicant will download QIMS Admission Processing Form from QIMS official website (www.qims.edu.pk). Completely filled form & required documents will be submitted to QIMS Admission Cell within the due date given by NUMS / QIMS for online registration

(2) Admission processing fee will be charged as prescribed by NUMS / PM&DC regulations.

(3) Incomplete form will not be accepted.

5. **General Rules / Regulations (Applicable on all categories):**

a. All admissions shall be conducted strictly on merit as per PM&DC / NUMS / QIMS regulations.

b. For timely submission of admission application, candidate can upload original scanned SSC and HSSC result card issued by concerned board without attestation. However, IBCC attested SSC and HSSC Certificate or Result card is required while getting admission as per IBCC Notification.

c. IBCC attestation is only required for SSC and HSSC Certificates or Result Cards issued by Boards of intermediate & Secondary Education (BISEs). O Level and A Level Equivalence certificate are issued by IBCC do not require attestation.

- d. Matric/SSC and FSc/HSSC Certificate issued by BISE must be IBCC attested as per IBCC notification No. F.7-1/IBCC/BISE/2023/210.
- e. Seat category cannot be changed after fee deposition, except for BIn subsidized cat e.g. If an eligible & top reserve candidate of subsidized cat (recommended in all int reports) accepts admission on BOM cat and deposits fee, later seat in BIn subsidized cat becomes vacant, the candidate's cat will be changed from BOM to subsidized cat being on merit in subsidized cat.
- f. Each candidate from the said categories shall be sent 3 emails / sms/ calls. Candidates not responding to emails / sms and calls cannot claim for the seat.
- g. Any student not accepting offer / not responding to emails / sms, not depositing fee within the given due date / time will be dropped and the student next in merit list will be offered admission.
- h. Any applicant whose degree / CNIC / local / domicile / income certificate / pay slip / pension slip etc is fake / not verified by the granting institution or credentials are found to be false / forged shall have the admission terminated with immediate effect. A student who is found to have forged their SSC / HSSC or equivalent examination certificate / degree or presented a false document shall be barred from applying to QIMS.
- i. Interviews shall be conducted only for BIn subsidized category.
- j. PM&DC Admission Regulations 2023, para - 5(14): A student when accepting admission to a college shall be under an obligation to disclose to the college if a prior admission has been accepted by them to any other college, and such student shall prior to accepting such later admission must in writing inform the prior college of cancellation of their acceptance with a copy to the designated email of the Authority. Failure by a student to cancel the prior acceptance of admission shall render all admission offers of student as void and the student shall be ineligible for admission.

6. Choice of Seat Categories:

- a. Every Balochistan local / domiciled student will mention choice of seat category preference wise:
 - (1) A BIn Subsidized Cat eligible applicant will mark subsidized cat as preference 1 and BIn open merit cat as preference 2.

- Each student will be responsible to discuss/produce his/her own problems/ issues to the college authorities. He/she will not be permitted to present problems faced by group of students.
- It is the moral obligation of all students to respect all faculty members, lab staff & admin staff of the college.
- All students are responsible for the good care, maintenance of machinery and equipment used during training. Breakages and losses are to be reported immediately to the authorities.

MEDICAL SUBJECTS (COURSE TO BE COVERED DURING 5 ACADEMIC YEARS)

- **1st Prof Subjects**
Anatomy, Physiology, Biochemistry, Islamic & Pakistan Studies.
- **2nd Prof Subjects**
Anatomy, Physiology, Biochemistry, Behavioural Sciences.
- **3rd Prof Subjects**
Pharmacology, Forensic Medicine, General Pathology, Clinical Methods
- **4th Prof Subjects**
Community Medicine, Special Pathology, Eye, ENT, Medicine, Surgery, Gynecology & Obstetrics, Psychiatry, Dermatology, Orthopedics, Anaesthesia, Cardiology, Gastroenterology, Neurosurgery, Urology, Paediatrics, Clinics, Clinical Methods
- **5th Prof Subjects**
Medicine, Surgery, Gynaecology & Obstetrics, Paediatrics, Clinics, Trauma & Rehabilitation Medicine and clinical methods

SUBJECTS INCLUDED IN UNIVERSITY PROFESSIONAL EXAMINATIONS

.As per PMC decision, the MBBS academic course is divided into 1st, 2nd, 3rd, 4th, & 5th professionals, each followed by final university examination which will comprise of annual & bi-annual examinations. University professional examinations are conducted towards the end of each academic year.

PROFESSIONAL EXAMINATIONS & SUBJECTS

- 1st Professional Examination : Anatomy, Physiology, Biochemistry
- 2nd Professional Examination : Anatomy, Physiology, Biochemistry, Islamiat and Pakistan Studies.
- 3rd Professional Examination : Pharmacology, Forensic Medicine, General Pathology
- 4th Professional Examination : Community Medicine, Special Pathology, Eye, ENT
- 5th / Final Professional Examination: Surgery & Allied, Medicine & Allied, Gynaecology & Obstetrics, Paediatric Medicine

TEACHING / TRAINING METHODOLOGY AT QIMS

- Traditional Lecture Based Learning (TLBL)
- Problem Based Learning (PBL)
- Team Based Learning (GBL Tutorials)
- Case Based Learning (CBL)
- Bed Side Teaching (BST)
- Tests, Assignments, OSPE, OSCE & TOACS
- Demonstrations
- Tele-medicine Practices
- Seminars
- Research symposia
- Case Studies
- Workshops
- Presentations
- Log Books
- Small Group Discussions (SGDs)
- Student Study Guide
- Self Directed Learning (SDL)
- E-Learning
- Blended Learning
- Simulation Based Medical Education

QIMS is committed to academic and clinical excellence through combination of exquisite teaching and quality training. The curriculum stresses on small group work relationships between students and faculty which promotes mutual understanding and habit of self-learning. Problem-based, community-oriented, research based learning methodology is used both in basic and clinical teaching to make learning more relevant and contextual. The doctors produced through this system are expected to be highly competent, skillful, humane with professional ethics and clinically sound. Per annum each course is divided into 03 modules, followed by a Module Assessment test (MAT).

ACADEMIC LEARNING FACILITIES

- Highly qualified / experienced faculty
- State of the art, air conditioned lecture halls, equipped with multimedia & smart / interactive boards
- Laboratories equipped with multimedia & latest instruments/equipments
- State of the art Anatomy, Forensic Medicine, Community Medicine and Pathology museums.
- PBL / Tutorial rooms
- Networking
- Information technology labs
- General library stocked with original latest editions of textbooks, reference books, periodical journals, thesis / dissertations, magazines, newspapers & internet access
- E-library
- Clinical Skill Lab
- Maximum indoor/outdoor clinical teaching & training facilities
- Facilities to observe surgical procedures in OTs

EVALUATION

○ **Internal Evaluation:**

Students are evaluated through periodical internal evaluation in the form of 3 End of Block (EOB) exams + 01x Pre-Annual Exam during an academic session. 10% marks in theory & 10% marks in viva voce / practicals are allocated for internal evaluation in Prof Exams. These are,

- 1st End of Block (EOB) Exam
- 2nd End of Block (EOB) Exam
- 3rd End of Block (EOB) Exam
- Pre-Annual Exam

○ **University Professional Examinations (Annual / Bi-Annual):**

Annual & Bi-Annual prof examinations are held every year as per schedule of university.

○ **Evaluation Methodology Theory**

- Short Essay Questions (SEQs)
- Short Answer Questions (SAQs)
- One Best Response Questions (MCQs)

Viva Voce / Practical Tests

- Oral
- Structured Viva
- Spotting
- Objectively Structured Practical Examination (OSPE)
- Objectively Structured Clinical Examination (OSCE)
- Performance in Practical Tests
- Clinical Methods
- MOCK Test

Note: Zero tolerance policy for using unfair means during exams.

○ **Parents /Teachers Alert Meetings:**

Regular parents / teachers meetings are conducted to apprise & alert the parents with behaviour, academics and attendance performance of their wards.

Academic cards showing academic performance, attendance percentage & attitude of their wards are provided to the parents after each term/module assessment test.

○ **Teachers Evaluation:**

To modify the teaching & training methodology as per students' satisfaction & curriculum requirements, teachers are evaluated by students through filling a performa.

FACILITIES

FOR STUDENTS AND FACULTY

QIMS offers a number of facilities for its students apart from state of the art lecture & multipurpose halls, labs, museums, PBL and tutorial rooms etc.

- Central Library
- Digital Library
- Departmental Libraries
- Multipurpose Hall
- Skill lab
- Auditorium
- Hostels
- Transport Facilities
- Mosque
- Day Care Center
- Sports Centre
- Book Shop
- Cafeteria/Tuck Shop
- Free Medical Facility
- Animal House
- Cantt Entry Pass

LIBRARY / LEARNING RESOURCE CENTER

CENTRAL LIBRARY: Central Library of QIMS comprises of a print book section, a reference library section and e-library section. There is ample seating area for 100 readers, offering plenty of space for students and faculty. The library provides huge 'state of the art' hall having separate sections for basic, undergraduate, clinical and post graduate & nursing students.

QIMS central library facilitates students, faculty and researchers in their studies, teaching and research. It provides an attractive collection of more than 4000 books, medical research journals, magazines and a variety of reference material. The library promotes logical and critical thinking by providing access to information resources with depth and breadth appropriate to the curriculum. Students can access library from 08:00 am to 08:00 pm.

DIGITAL LIBRARY: Learning through use of modern media is facilitated by an E-library having 30 computers providing access to the Internet and online educational resources for studies. The E-library section at QIMS central library has an extensive collection of CDs / DVDs. All materials are QIMS approved. Faculty may search for videos, books, journals by using QIMS library catalogue. It also has a digital section which can be accessed online. The facility of internet is also available for online access to e-books, teaching / research material, lectures and other educational correspondence.

DEPARTMENTAL LIBRARIES: Each department is well equipped with a departmental library.

Head of Department

Col (Retd.) Muhammad Naeem
Psc, MSPM, MSc Mass Comm, MSc ASW

Officer In Charge

Maj Dr. Asim Minallah
MBBS, FCPS

Deputy Managers LRC

Mr. Saad Masood
Mr. Khurram Ali

Library Supervisor

Mrs. Asma Yousaf

CLINICAL SKILL LAB: QIMS Quetta is proud to establish its Clinical Skill laboratory. "Clinical skill Laboratory", i.e. specific practical skill training facilities, are a firmly established part of Medical Education offering the possibility of training clinical procedures in a safe and fault-forging environment prior to real life application at bedside or in the operating room. Skills lab training follows a structured teaching concept, takes place under supervision and in consideration of methodological-didactic concepts, ideally creating an atmosphere that allows the repeated, anxiety- and risk-free practice of targeted skills.

MULTI PURPOSE HALL: A multi purpose hall with more than 200 seating capacity is available for indoor games & examinations/ seminars/ functions.

AUDITORIUM: Six hundred seated auditorium is under construction.

HOSTELS: Separate hostel facilities for male and female students are available on request. The female hostel is located next to QIMS and the male hostel is located a short distance away within cantt area. Both hostels are well secured & managed. Residents of the hostels are provided full access to the campus and are able to visit the library; bookshop, hospital and cafeteria in accordance with establish rules and regulations. There are furnished rooms with study rooms, common rooms, TV lounges, play grounds, gymnasium (separate for girls and boys), security system, Wifi facility & mosque etc, in the premises of hostels. Hostel facility includes boarding/lodging, meals, pick and drop.

TRANSPORT : College provides transport facilities to their students from hostel to college, on college events, provide first aid transport in case of any emergency and also provide transport for outdoor activities and picnics.

DAY CARE CENTER: QIMS is providing Day Care Center for faculty and admin staff to take care of their kids (children) during QIMS official hours.

SPORTS CENTRE: A healthy mind and body go together to build a healthy life. The physical rigors of the medical profession are not neglected at QIMS. A variety of sports and physical enhancement activities are available round-the-clock for the students, allowing them to use these facilities during short breaks or for longer stretches. Modern sports center facility in which recreational indoor games such as Table Tennis and Badminton etc are available for the students. Arrangements have been made for external facilities to provide opportunities to its students to play outdoor games such as cricket, basketball, volley ball and football.

BOOK SHOP: On site book shop offering a range of medical / related books and stationery. A photostate machine has been arranged to facilitate the students.

CAFETERIA AND TUCK SHOP: Cafeteria for boys & girls and tuck shops are situated in the campus to host the students, assisting staff and residents of hostels and / or their guests. It offers a range of snacks and other items of daily use.

FACULTY TEA BAR: A separate tea bar is available for faculty.

MEDICAL FACILITY: Quetta Institute of Medical Sciences provides facility of treatment for medical students/ faculty/ college staff:

- a. Outdoor consultation at CMH Quetta will be free.
- b. Indoor admission/treatment if prescribed will be carried out on concessional rate.
- c. Routine / Local Purchase medicine will be purchased by the students themselves.
- d. Laboratory/other investigations will be done at CMH on Government charges.
- e. Ambulance service is provided to transport sick students from hostel to CMH Quetta.

ANIMAL HOUSE: Animal house is a compulsory component of a medical institution. Various practicals are conducted by students in Physiology & Pharmacology on animals such as rabbits, pigeons etc. Research is incorporated in QIMS curriculum at undergraduate level. Students conduct minor research projects on animals like sheep, rabbit etc. Animals provided in animal house will also be used for postgraduate research projects.

CANTT ENTRY PASS: Entry into cantt will be made through station HQ card only. QIMS will facilitate the students in preparing station HQ card.

EXTRACURRICULAR ACTIVITIES

CO-CURRICULAR ACTIVITIES

A multifaceted personality requires development of mental, social and communication skills. Besides curriculum, a number of extracurricular activities have been incorporated in the training for facilitating the overall development of positively balanced personalities. These extracurricular activities are designed to play an important role in materializing the objectives of influential prominence in character building & personality enhancement. At QIMS, they are achieved through elaborate structured participation in various co-curricular activities such as debates, quizzes, fairs, study and excursion trips, seminars, conferences and workshops on a variety of topics throughout the academic year. Students are not mere observers, but are encouraged to take active participation in these activities.

OATH TAKING CEREMONY: College organize oath taking ceremony for newly inducted students at the start of their session. An oath taken by students to observe a code of medical ethics and to follow the rules and regulations of QIMS. Oath taking by the students is repeated in 3rd year before clinical assignments at CMH Quetta.

SPRING FESTIVAL: Spring Festival is organized regularly in QIMS. QIMS celebrates the Spring Festival enthusiastically. At the occasion different stalls are arranged provided with different items of food and other delicacies. At the event different indoor games and stage programs are organized. This event always gets the appreciation of the parents and students.

INDEPENDENCE DAY CELEBRATION: Independence day celebration is an essential event of QIMS each year. On 14th August Independence Day is celebrated with traditional zeal and zest. Students performs stage dramas to express their love for beloved country Pakistan and participates in national songs and other entertainment programs.

DEFENCE DAY: Defence day is celebrated on 6th September every year at QIMS. It is celebrated in the memory of martyred people who gave sacrifices of their life for the country in 1965. On that day students participates enthusiastically in different debates, cultural dramas etc.

SPORTS WEEK: Every year QIMS organizes a sports week to refresh & motivate its students. Every year sports week events are enthusiastically participated by the students and faculty alike. Students participate in various games including table tennis, football, basketball, volleyball, badminton, tug-of-war and scavenger hunt. The closing ceremony is followed by dinner, musical program and a bonfire.

STUDY TOUR: A study tour for the 4th Year class is arranged each year, to Rawalpindi, Islamabad and Muree etc.

AWARENESS DAYS: Department of Community Medicine organizes awareness walks:

On TB day, Malaria day, Polio eradication awareness, Pink ribbon day etc.

ANNUAL DAY CELEBRATIONS: It is a tradition of QIMS to celebrate annual day to show the talent of its students on Annual Day in which glittering and giggling faces of 2nd year students enthusiastically welcomes the shining stars of new batch. Every year the show is organized with beautiful script, songs and skits which offers quality entertainment making the event one of the kind in Quetta. The function is attended by large number of Govt officials, senior officers and guests from civil society. A number of national news channels covers and telecasts the event.

DEBATES/ DECLAMATION CONTESTS: Students of QIMS are motivated to participate in debate /declamation contests as QIMS participated in Intercollegiate Declamation Contest held at EME College Rawalpindi and won prizes. On Independence Day Inter-college speech competition is arranged to highlight importance of Independence for Pakistan.

The Students are given opportunity to attend International Surgeon General Conference which is held in Rawalpindi each year. Students from QIMS actively participate in the conference.

SPORTS & ATHLETICS: QIMS provides the facilities for the following sports:

Cricket, Football, Table Tennis, Badminton, Basket Ball, Athletics, Throw Ball, Volley Ball.

UNDERGRADUATE SCIENTIFIC SYMPOSIUM: Each year scientific symposium is held in QIMS, in which undergraduate students of 4th & Final year present their research papers. Symposium is attended by VCs, Principals & students of different universities & colleges of Quetta. Research work & capabilities of students are highly appreciated by all dignitaries.

Quetta Institute of Medical Sciences held its 4th Convocation (4th, 5th and 6th Batch) on May 28, 2022 at Quaid Auditorium, School of Infantry, and Tactics (SI&T) Quetta Cantt. The Chief Guest of the occasion was Commander HQ 12 Corps, Lt Gen Sarfraz Ali, HI (M), T Bt and Bar accompanied by Guest of Honor Lt Gen Waseem Alamgir HI (M), Vice Chancellor National University of Medical Sciences (NUMS) and Vice Chancellor University of Balochistan Prof. Dr. Shafiq ur Rehman.

The proceeding of convocation started after recitation of Holy Quran followed by National Anthem. After conferment of Degrees and Gold Medals to the graduates, the Chief Guest Commander HQ 12 Corps, Lt Gen Sarfraz Ali, HI (M), T Bt and Bar in his address said that QIMS has become a very significant and successful institution in the field of medical sciences. QIMS has achieved 100% result in the year 2021 and in view of its recent achievements; the number of students in each session has been increased from 100 to 150 which is a testament to its excellence.

He added that graduating doctors have achieved commendable success. Although studying in the era of COVID-19 was a challenge but this experience would help students in optimal training and refinement of ethical skills. Moreover, in this hour of need you have to serve the people of Balochistan sincerely and selflessly. In the recent past, during COVID-19, the nation has paid tremendous tribute to the doctors who were regarded as front line heroes. He also urged fresh doctors to carry this sacred duty further in the challenging environment.

Principal QIMS Prof. Dr. Zafar Hussain Tanveer while speaking on the occasion said that as we are all aware, that improving healthcare sector is a nation-building process. The students, who will be receiving degrees and awards today, are our investment for building a better future. Your talents, skills, and knowledge will be needed to spearhead improvements throughout provincial health system of Balochistan. You are the beacon and symbol of the spirit and aspirations of the people of Balochistan. A symbol of this government's desire to cultivate talent, reward excellence, and reach the highest standards.

Later on, the convocation was declared closed by the Chief Guest which marked the end of the ceremony.
